

- The VSC-201 courtside seat has an easily transportable and foldable structure. The seat's seatrest and legs are foldable. The attachments at the seatrest's base secure the seating area when unfolded. Due to its foldable nature, the seats can be easily stacked when not in use. The VSC-201 courtside seat has PP injection armrests on both sides. The backrest of the seat is suitable for logo and advertising applications. For increased safety during use, the VSC-201 courtside seat has height-adjustable plugs on its legs. The seat's PP injection seatrest and backrest skeleton make it highly resistant to hooliganism.

## TECHNICAL SPECIFICATIONS:

- The seat sponge complies with the flame retardancy EN FMV SS 302 standard.
- Compliance with the EN 16139 standard.
- The artificial leather used in the upholstery is produced with additives providing high resistance against salt, UV rays, fire, and chlorine.
